# Tycho van Rosmalen

Junior Software Developer at PLUGZ

Druten, Gelderland, Netherlands

## Summary

Hey! I'm Tycho van Rosmalen – a software developer with a passion for smart solutions and a bartender with a passion for conviviality.

During the week, I work at Plugz B.V. in Nijmegen, where I develop and maintain the 50five app. This app helps users easily reserve charging stations – a practical tool in the world of electric driving. I love making technology accessible and enjoy working on products that are actually used.

On weekends, I regularly work behind the bar as bar manager at LOC7000, during events like 538 King's Day and large-scale shows at the GelreDome. In this role, I manage the bar team and ensure smooth and friendly service. Safety and quality are paramount: I ensure that work processes run smoothly, that everyone can work safely, and that visitors receive professional service.

Whether it's building software or running a busy bar, I enjoy working in a team, appreciate structure, and enjoy a good challenge. Always with a smile.

---

## Experience

Fundustry Adventures

Allround Instructor

September 2023 - August 2024 (1 year)

Ewijk, Gelderland, Netherlands

Koopman Logistics Group BV

Hiker

December 2023 - March 2024 (4 months)

My job is to pick up lease cars from the customer/rental company and deliver them to the next customer or back to the depot.

This involves various vehicles, from a van to a Tesla.

This further develops my driving skills.
